Guiding to Value

## **GUIDING TO VALUE**

Net Service Group is a key European player in digital transformation, guiding private companies and public institutions to create organizational, economic, and sustainable value.

# WHO WE ARE

## Identity, values, and how we create value.

At Net Service Group, innovation starts with people: bold ideas, open minds, and a shared vision built on ethics, trust, and sustainability.

We are a reliable European group guiding public and private organizations through digital transformation.

Our value lies in combining expertise, relationships, and local presence within an integrated network of companies and partners.

Discover who we are, our origins, and our direction.

### **NATURE AND TECHNOLOGY: TWO WORLDS, SAME EFFICIENCY.**

The graceful and purposeful flight of dandelion seeds through the air.

## OUR COMPANY STATEMENT

**A digital transformation group creating long-term value.**

Net Service Group guides private and public organizations on their digital journey, creating lasting organizational, economic, and sustainable value. Guided by research and holistic innovation, we intertwine technology and human drive to deliver efficient, cutting-edge solutions. Our multidisciplinary network, spanning IT and consulting, reflects our dedication to exceeding client expectations.

## PEOPLE, ETHICS AND VALUES

**Driven by people, ethics, and sustainability.**

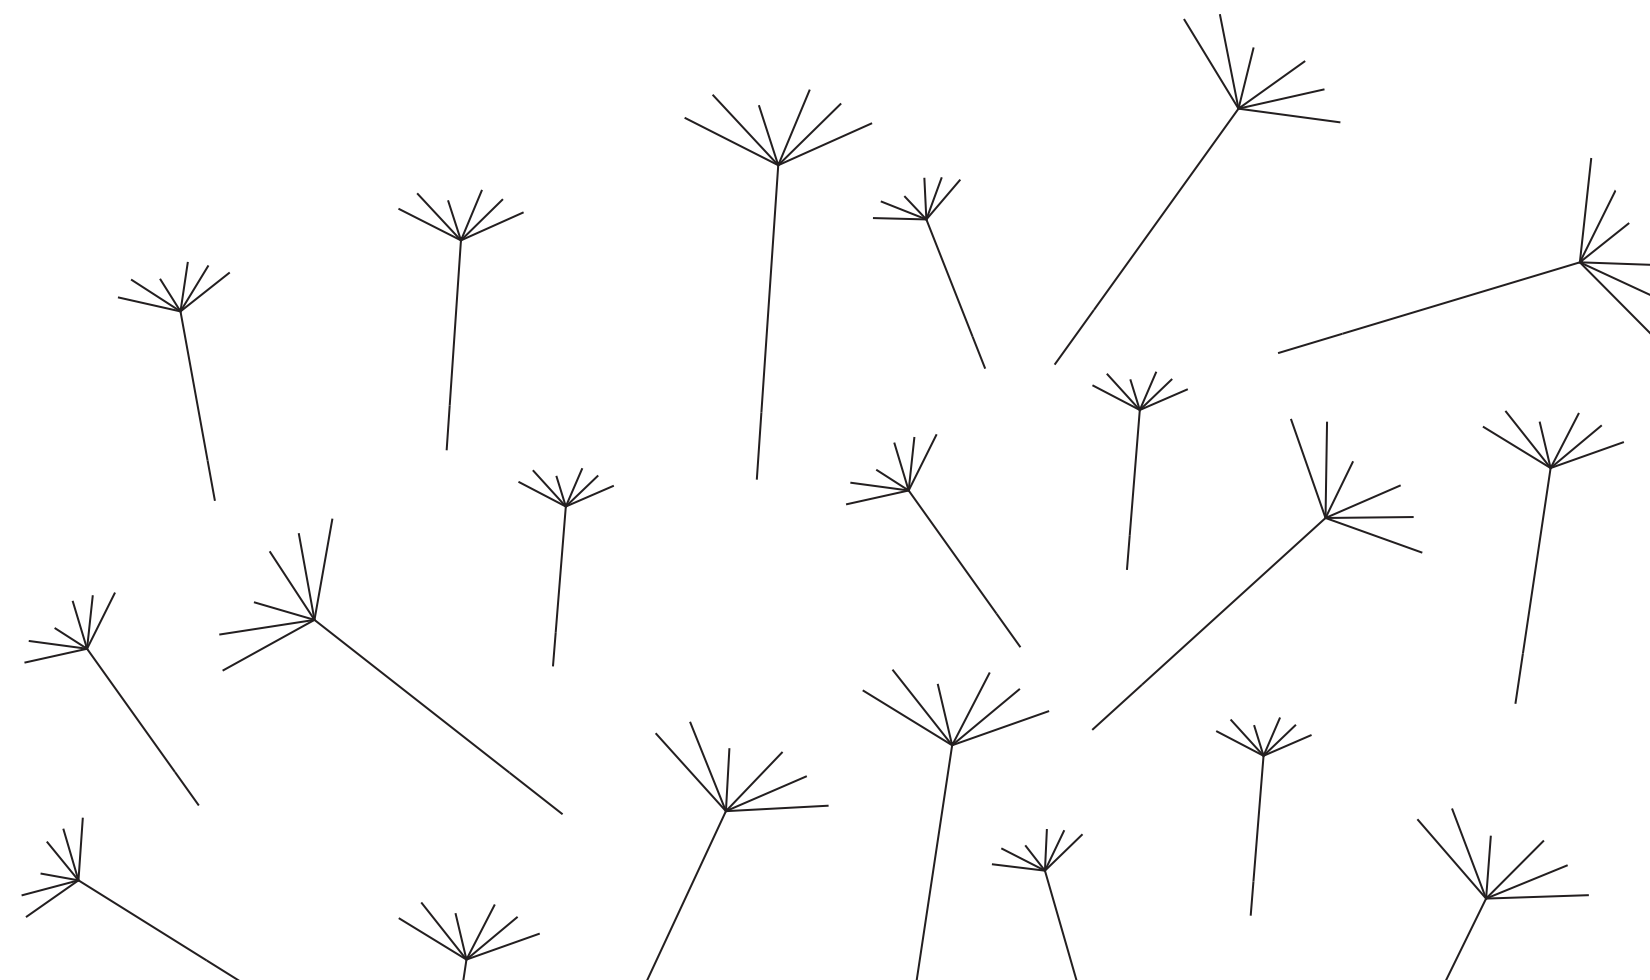

People are the heart of innovation at Net Service Group. We foster inclusion, well-being, and responsibility in an ethical environment where values guide decisions and relationships. We promote sustainability and environmental awareness, backed by major national and international certifications. Trust, transparency, and responsibility shape our daily actions.

## KEY COMPANIES

**Strategic unity across specialized companies.**

Net Service Group brings together diverse companies under a cohesive structure. Each contributes cutting-edge IT solutions that are secure, efficient, and tailored to a fast-evolving market.

### GROUP'S KEY COMPANIES

**NATURE AND TECHNOLOGY:  
TWO WORLDS, SAME EFFICIENCY.**

The ever-changing and precision-shaped flight of a bird flock.

# WHAT WE DO

**What we do. In 4 strategic areas. For every client.  
With a single mission: creating value.**

At Net Service Group, we deliver concrete, measurable, and tailored digital solutions that simplify complexity and generate real impact for organizations, people, and society.

We combine deep domain knowledge with technological expertise to drive secure and efficient digital transformation, with a focus on e-Justice and public service management.

## **E-JUSTICE SYSTEMS**

**Building together a juster justice.**

We lead major European digital justice initiatives, creating accessible, transparent, and efficient systems. Leveraging expertise in complex legal frameworks like Italy's, we design digital platforms that reduce case times, automate workflows, and improve court operations, making judicial systems fairer and future-oriented.

## **PUBLIC SECTOR INNOVATION**

**Driving transparent and efficient innovation for the public administration.**

We help administrations to improve the relationship between institutions and citizens by transforming processes, streamlining services, and improving transparency. Our secure, scalable solutions – supported by regulatory expertise and change management skills – deliver concrete, lasting efficient innovation for the public sector.

## **ENTERPRISE DIGITAL SOLUTIONS**

**Guiding enterprises to success with focused digital innovation.**

Across industries like finance, insurance, healthcare, and utilities we guide SMEs and large companies in fast, cost-effective digital transitions using AI, no-code, CRM and blockchain. By integrating new tech with legacy systems and focusing on people involved in digital transformation, we turn innovation into sustainable business performance.

## **PUBLIC UTILITIES EVOLUTION**

**Efficiency and regulatory compliance working together.**

We help utilities balance regulatory obligations with innovation objectives through digital platforms that boost efficiency, ensure compliance, and support sustainable service models. Our solutions simplify processes, improve service quality, and drive long-term organizational change.

# HOW WE DO IT

How we create value by connecting top expertise, smart innovation, and exclusive industry insights.

At Net Service Group, we break boundaries across industries by integrating proprietary products, strategic alliances, and pioneering in-house R&D, powered by insights from a dynamic think tank of universities and industry leaders.

**NATURE AND TECHNOLOGY:  
TWO WORLDS, SAME EFFICIENCY.**  
The smart and efficient organization of fish schools in the blue ocean.

## RESEARCH & DEVELOPMENT

Imagining the future, investing in research, building our tomorrow.

Our inter-company R&D hub anticipates change and explores emerging tech like AI, blockchain, and quantum computing across projects ranging from e-Justice to agrifood, cybersecurity to sustainability with the objective to create value for citizens, businesses, and institutions. In our applied research we ensure every innovation respects interoperability, data protection, and social impact.

## STRATEGIC PARTNERS

Strategic partnerships multiply value.

To lead the digital transformation, we build strategic alliances with leading tech players to scale innovation and amplify impact.

## EXCELLENCE NETWORKS

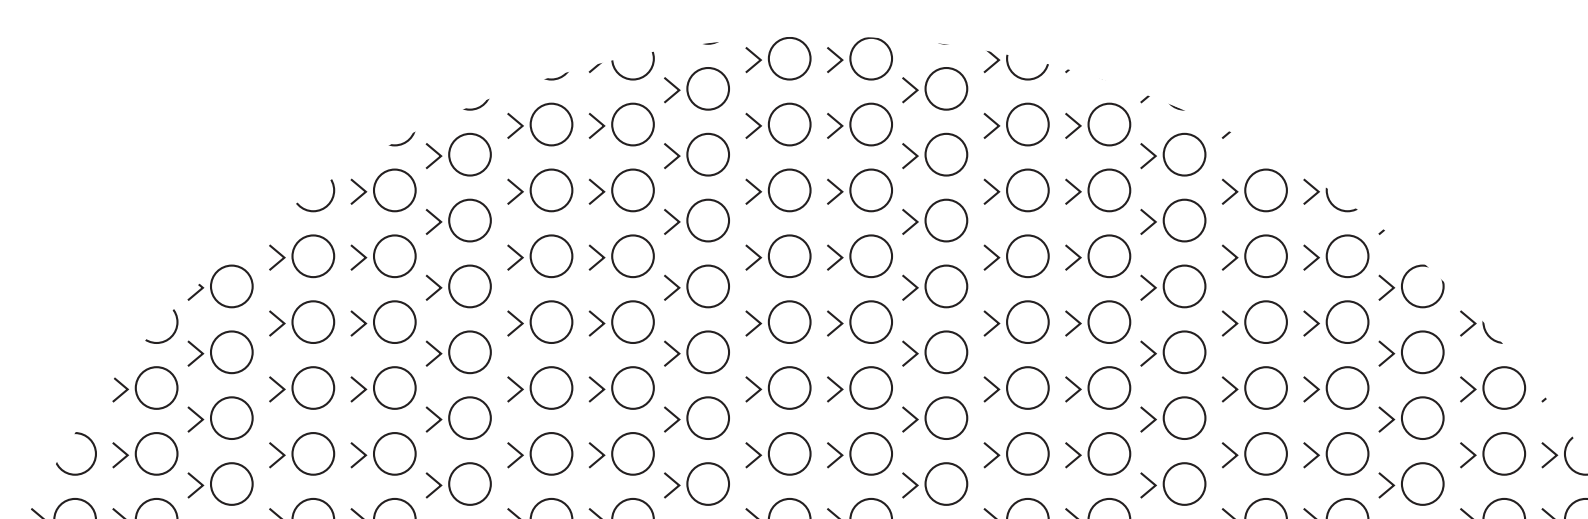

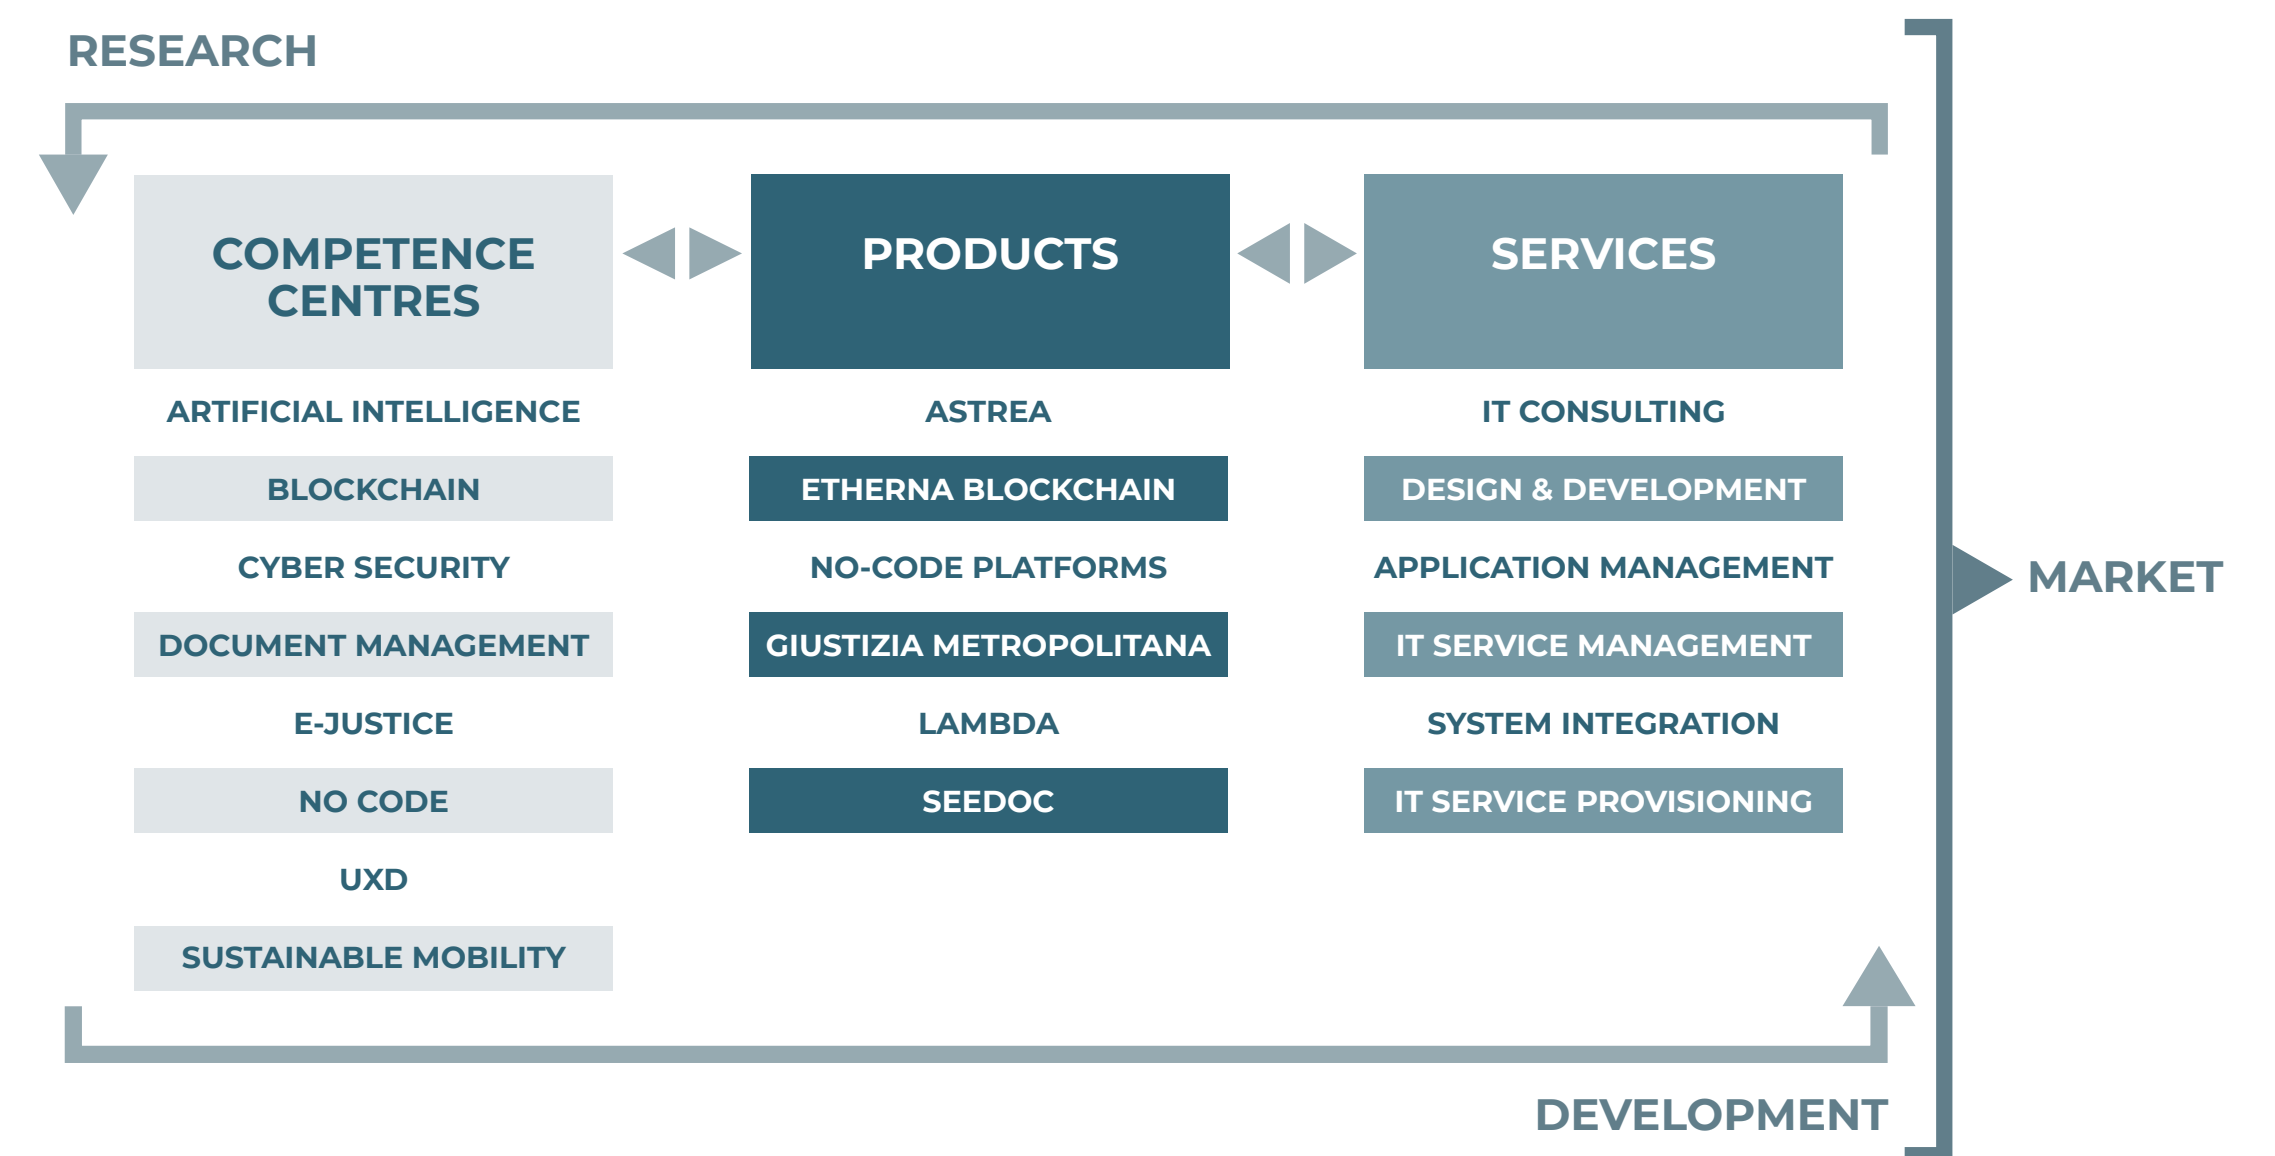

The most authentic innovation arises from collaboration.

We work every day alongside leading academic institutions, research centers, and renowned business networks to turn ideas into scalable, shared-value solutions.

## OUR VALUE CHAIN

Designing and implementing with success a proven value-generator.

For 25+ years, we've delivered value for clients of the public and private sector through a proven methodology based on 3 integrated components: Competence Centres, Products, Services, backed by a strategic R&D investment of over 10% of annual revenue: more than twice the Italian ICT average.
